

Cree LED recessed spotlight veranda Valencia black ab | warm white | set of 6, 8, 10 or 12 pieces

Product Images

Short Description

This AB set of black Cree LED recessed spotlights from the Valencia series is suitable for wooden and aluminium porches. The recessed spots are available in sets of 6, 8, 10 or 12 dimmable LED recessed spots (3 watts), including a parallel LED transformer with a connector and a Hamulight remote control.

Description

The black Valencia recessed spotlights have an IP rating of 65 (IP-65). This means they are completely resistant to dust and splash/spray water. The spotlights have a small recessed size (30 mm) and a suitable height (37 mm) and diameter (36 mm), making them fit in almost any veranda. Furthermore, each spotlight has 5 metres of cable and if that is not enough, you can order an extension cord with it. The built-in spotlights' cables are double-insulated, so they are well protected.

In addition to the downlights, you will receive a Hamulight remote control and LED transformer with parallel connector. The transformer converts the incoming 230 V to low voltage. The parallel connector allows you to plug the downlights into the transformer. With the Hamulight remote control, you can switch the built-in spotlights on and off and dim them. The batteries for the remote control, the remote control holder and the mounting material for the holder are supplied as standard.

A wall box allows you to safely conceal the transformer and connector. You need to add these to your shopping basket separately. Are you going to assemble this set yourself? Then also consider a hole saw (size 30 mm) or, if you do not have enough cabling, an extension cable.

Tip: make sure you can still reach your transformer and connector.

The Valencia recessed spotlights come with a 3-year guarantee. More product details can be found under product specifications. Would you like to light up your veranda with more than 12 recessed spotlights? That is possible! Because you can operate 2 transformers with 1 remote control.

Additional Information

Article number	L2452
EAN code	7435845963952
Brand	Hamulight
LED chip	Cree
Spot color	Black
Suitable for	Inside & outside
Consumption	3 watt
Input voltage	230V AC
Light color	Warm white (2700K)
