## Cree LED wall light Amadora | warm white | round | 2 x 1,5 watt | up & down | different colours

Product Images

Short Description

The Cree LED wall light Amadora is an addition to extend your current porch set. The wall lamp is equipped with 2 dimmable spots. One spot shines up with 1,5 watts and the other down with 1,5 watts.

Description

The Amadora wall light is an addition to your current porch set. We, therefore, advise you to carefully check whether you still have room in the connector of your current porch set. Is there still room? Then the Amadora wall light is highly recommended to let your porch shine from the outside as well. Using 2 spots with warm white light (2700k) of 1,5 watts each your porch will be illuminated in an extremely atmospheric way!

The Amadora wall light is suitable for placing on the outside of the posts of your porch. The lamp, therefore, has an IP value of 67 (IP-67). This means that the lamp is resistant to splashing and spraying water and is dustproof. The wall lamp is therefore weatherproof. The wall lamp has a 7-meter cable with a connector at the end. The connector should be plugged into the connector of your porch set.

Tip: this product only works in combination with a porch set. You don't have a porch set? Then you can order one from our webshop.

Do you have a question about the Amadora wall light? Please ask our LED specialists. See also the product specifications of this wall lamp.
