

LED transformer | connector 12-hole | parallel | 36 watt

Product Images

Short Description

This Hamulight LED transformer is suitable for the porch AB sets. This transformer fits any veranda. On the transformer is a 12-hole parallel connector. You can connect 1 to 12 spotlights to this transformer. Please note: it is possible to operate 2 transformers with 1 remote control Apex (L2446). This way you can control more than 12 spots!

Description

Are you looking for a transformer for your veranda AB set? Then this is the transformer you need! This transformer connects directly to 230 volts. The transformer converts 230 volts to a safe low voltage of 3.6 volts. The parallel connector ensures that if a spot fails, only that spot fails and the rest of the spotlights continue to burn. You can connect 1 to 12 spotlights to this transformer.

The corresponding remote control Apex with article number L2446 has to be ordered separately via the webshop.

Please note: it is possible to operate 2 transformers with 1 remote control Apex (L2446). This way you can control more than 12 spots!
